

FireAde® CLIMATE CONTROL

Green Agent Technology™

Environmentally formulated FireAde® Climate Control is the newest generation in low temperature aqueous film forming foam. This formulation signifies our commitment in protecting our environment using Green Agent Technology™. FireAde®Climate Control concentrate is formulated to prevent additional environmental hazards when applied to fire. The capacity of FireAde®Climate Control to produce a stable, heat resistant and self-sealing blanket at -40°C is extraordinary. A unique proprietary additive (not antifreeze) has been added to FireAde® to withstand extreme low temperatures.

FireAde®Climate Control contains NO hazardous materials in the formulation. The special formulated concentrate has a dramatically reduced viscosity compared to other low temperature concentrates. The viscosity enables FireAde® Climate Control to be used in all types of foam portioning systems, in-line eductors, and standard foam equipment with no adverse effects.

- ▶ **Environmentally Formulated**
- ▶ **Organic Compounds**
- ▶ **Zero Hazardous Chemicals**
- ▶ **Encompasses Water Based and Food Grade Ingredients**
- ▶ **Contains no ingredients reportable under the Superfund amendments and Reauthorization Act (SARA) Title III, Section 313 of 40 CFR-372 or Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).**

Specifications

Applications

FireAde® Climate Control may be used on a vast range of Class A and Class B fires. Typical applications include warehouse, spills, storage tanks, loading docks, loading racks, process areas, etc. FireAde® Climate Control is applicable at 0.25% - 1.0% on Class A fires as a wetting agent.

Application Flow Rates

Non Polar Solvents – Hydrocarbons
0.1 gpm/sqft @ 3%

Polar Solvents – Alcohols/Ethanol's
0.26 gpm/sqft @ 6%

Physical Properties

Appearance: Red
PH: 7.5-8.5
Viscosity: 8.5-9.5 cps
Min. Storage Temp.: -40° F/-40°C
Max Storage Temp.: 120°F/49°C
Effects of Freeze/Thaw: None

Shipping Information

FireAde® Climate Control concentrate is available in pails, drums, totes, and bulk shipments.

-40° C
